

## Diginex launches Front-to-Back Digital Assets Trading, Portfolio Management and Risk Platform Powered by Itiviti

February 17, 2021

SINGAPORE, Feb. 17, 2021 /PRNewswire/ -- Diginex Limited (Nasdaq: EQOS), the digital assets financial services company, and Itiviti, a leading technology and service provider to financial institutions worldwide, today announced the launch of 'Access', a front-to-back trading, portfolio, and risk management solution that enables the trading of cryptocurrencies and crypto derivatives across several platforms.

Access is powered by Itiviti's Tbricks, an award-winning trade automation technology and infrastructure that is recognized globally as one of the most popular institutional trading platforms available.

The launch of 'Access' comes as institutional investors are making a wholesale shift into digital assets, driven by dwindling returns in traditional assets and escalating fiscal stimuli fueling rising concerns about inflation.

Access provides investors with an aggregated order book across exchanges, and the ability to ensure best execution across their previously disparate liquidity pools. Execution, order and portfolio management are streamlined for investors through a robust front, middle, back office with real time risk and P&L.

Tbricks is a next-generation, cross-asset trading system optimized for low latency, high throughput and scalability. Already in use with many tier one sell-side firms and banks, today's launch will mean that clients of these firms will now have instant ability to trade crypto currencies and manage their risk and portfolio in the same way as any other traditional asset classes.

Richard Byworth, CEO of Diginex, commented: "This launch provides yet another onramp for institutional adoption of Bitcoin and Digital Assets. Itiviti has a proven track record in providing market leading technology for traditional asset classes to both buy-side and sell-side institutional investors. Diginex brings many years of experience in crypto and digital assets combined with a robust approach to compliance and risk management."

Continued Byworth: "We see increasing demand for cryptocurrency exposure from institutional investors and believe this will be a dominant theme in 2021. With the launch of Access, investors can now manage their portfolios using institutional technology that is tailored specifically for cryptocurrencies."

"We are excited to announce our growing partnership with Diginex," said Rob Mackay, CEO of Itiviti. "With the integration and launch of Access on Tbricks, trading across different crypto exchanges will now be open to institutional investors across the globe and expose them to Itiviti's advanced automated trading technology."

To learn more about the trends in institutional digital asset trading and investing, Itiviti and Diginex will host a webinar on Wednesday March, 31st at 11am CET, register [here](#).

### Forward Looking Statements

*This press release ("Press Release") is prepared by Diginex Limited ("Diginex") and is provided for information purposes only and is a summary only of certain key facts and Diginex plans. This Press Release does not constitute an offer or solicitation or form part of an offer or solicitation of any kind to anyone in any jurisdiction in relation to any securities or other regulated products or services. Without limitation, the Press Release does not constitute an offer or solicitation to make use of any services provided by Diginex, and neither this Press Release nor anything contained in it will form the basis of any contract or commitment whatsoever. The contents of this Press Release have not been reviewed by any regulatory authority in any jurisdictions. Statements contained herein as to the content of any agreement or other document are summaries and, therefore, are necessarily selective and incomplete and are qualified in their entirety by the actual agreements or other documents. This Press Release includes forward looking statements that involve risks and uncertainties. Forward looking statements are statements that are not historical facts. Such forward-looking statements are subject to risks and uncertainties, which could cause actual results or outcomes to differ materially from the forward-looking statements. Most of these factors are outside of Diginex's control and are difficult to predict. Factors that may cause such differences include, but are*

*not limited to: the ability to recognize the anticipated benefits of the business combination; the ability of Diginex to grow and manage growth profitably; Diginex's limited operating history and history of net losses; Diginex's ability to execute its business plan; the inability to maintain the listing of Diginex's shares on NASDAQ; Diginex's estimates of the size of the markets for its products; the rate and degree of market acceptance of Diginex's products; Diginex's ability to identify and integrate acquisitions; potential litigation involving Diginex or the validity or enforceability of Diginex's intellectual property; general economic and market conditions impacting demand for Diginex's products and services; and such other risks and uncertainties indicated in Diginex's Shell Company Report on Form 20-F, including those under "Risk Factors" therein, and in Diginex's other filings with the SEC, which are available on the SEC's website at [www.sec.gov](http://www.sec.gov). In addition, any forward-looking statements contained in this press release are based on assumptions that Diginex believes to be reasonable as of this date. Diginex undertakes no obligation to update any forward-looking statements to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law. Other than those of Diginex, all names, trademarks and logos in this Press Release and used in the materials herein belong to their respective owners. Nothing contained on this Press Release should be construed as granting, by implication, estoppel, or otherwise, any right or license to use any third-party names, trademarks, or logos displayed on the Press Release without the written permission of such third-parties.
