

## Diginex and SGS Reaffirm Strategic Alliance to Advance Sustainable Finance Solutions

August 27, 2025

LONDON and GENEVA, Aug. 27, 2025 (GLOBE NEWSWIRE) -- Diginex Limited (NASDAQ: DGNX) ("Diginex"), a leading provider of Sustainability RegTech solutions, and SGS, the world's leading testing, inspection, and certification company, are pleased to announce the reaffirmation of their strategic alliance, originally established in 2022. This renewed alliance strengthens their commitment to delivering innovative, technology-driven solutions for sustainable finance, empowering organizations to navigate the evolving landscape of environmental, social, and governance (ESG) requirements.

Building on the success of their initial agreement, which focused on providing ESG data assurance services, the extended alliance will deepen collaboration to address the growing demand for robust, transparent, and scalable sustainable finance frameworks. By combining Diginex's cutting-edge ESG data management platforms with SGS's global expertise in assurance, verification, and certification, the strategic alliance will deliver enhanced tools and services to help financial institutions, corporations, and investors align with global sustainability standards and regulations.

Key Highlights of the Reaffirmed Alliance:

- **Enhanced ESG Data Assurance for Sustainable Finance:** The strategic alliance will leverage Diginex's blockchain-enabled technology and SGS's rigorous assurance methodologies to provide what we expect to be unparalleled transparency and reliability in ESG data, enabling better decision-making for sustainable investments.
- **Scalable Solutions for Financial Institutions:** The alliance will focus on developing tailored tools to help banks, asset managers, and other financial entities integrate ESG metrics into their financing and investment strategies, ensuring compliance with frameworks such as the EU Taxonomy and SFDR (Sustainable Finance Disclosure Regulation).
- **Global Reach, Local Expertise:** With SGS's extensive global network and Diginex's innovative digital platforms, the strategic alliance will deliver localized, high-impact solutions to support clients in meeting regional and international sustainability goals.
- **Driving Net-Zero Ambitions:** The collaboration will prioritize solutions that support organizations in achieving net-zero targets, including carbon footprint assessments, supply chain transparency, and sustainability reporting. "We are thrilled to reaffirm our strategic alliance with SGS, a trusted global leader in assurance and certification," said Mark Blick, CEO of Diginex. "Together, we are uniquely positioned to empower the financial sector with reliable, technology-driven ESG solutions that drive meaningful progress toward a sustainable future."

"We are proud to continue our strategic alliance with Diginex, building on our shared vision of advancing sustainability through innovation and trust," said Damien Rousseau, Head of Business Assurance at SGS. "This alliance strengthens our ability to support clients in navigating the complexities of sustainable finance with confidence and precision."

Since the original agreement in 2022, Diginex and SGS have successfully collaborated to help organizations enhance the credibility of their sustainability reporting. The reaffirmed alliance will further accelerate these efforts, addressing the increasing importance of sustainable finance in achieving global climate and social objectives.

### About Diginex

Diginex Limited (Nasdaq: DGNX; ISIN KYG286871044), headquartered in London, is a sustainable RegTech business that empowers businesses and governments to streamline ESG, climate, and supply chain data collection and reporting. The Company utilizes blockchain, AI, machine learning and data analysis technology to lead change and increase transparency in corporate regulatory reporting and sustainable finance. Diginex's products and services solutions enable companies to collect, evaluate and share sustainability data through easy-to-use software.

The award-winning diginexESG platform supports 19 global frameworks, including GRI (the "Global Reporting Initiative"), SASB (the "Sustainability Accounting Standards Board"), and TCFD (the "Task Force on Climate-related Financial Disclosures"). Clients benefit from end-to-end support, ranging from materiality assessments and data management to stakeholder engagement, report generation and an ESG Ratings Support Service.

### **Forward-Looking Statements**

Certain statements in this announcement are forward-looking statements. These forward-looking statements involve known and unknown risks and uncertainties and are based on the Company's current expectations and projections about future events that the Company believes may affect its financial condition, results of operations, business strategy and financial needs. Investors can identify these forward-looking statements by words or phrases such as "approximates," "believes," "hopes," "expects," "anticipates," "estimates," "projects," "intends," "plans," "will," "would," "should," "could," "may" or other similar expressions. The Company undertakes no obligation to update or revise publicly any forward-looking statements to reflect subsequent occurring events or circumstances, or changes in its expectations, except as may be required by law. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, it cannot assure you that such expectations will turn out to be correct, and the Company cautions investors that actual results may differ materially from the anticipated results and encourages investors to review other factors that may affect its future results disclosed in the Company's filings with the SEC.
