

Diginex (NASDAQ: DGNX) Launches Enhanced End-to-End Supply Chain Platform Targeting \$7+ Billion Market by 2029, Growing at 29% CAGR

September 29, 2026

New platform provides companies with multi-tier supply chain visibility, verified risk data and traceable due diligence as global regulatory requirements accelerate

- **Addresses a supply chain sustainability software market forecast to exceed \$7 billion by 2029**, with Verdantix projecting a 29% compound annual growth rate through 2029.
- **Panoramic, multi-tier view:** the new offering gives clients an end-to-end view of their supply chain across multiple supplier tiers, so they can identify risks, mitigate exposure and remediate issues.
- **Value beyond compliance:** the new offering is designed to lower operating costs by centralising data, helps reduce litigation risk exposure by a documented, evidence-based due diligence process, and support supplier and worker retention through clear accountability.

LONDON, Sept. 29, 2026 (GLOBE NEWSWIRE) -- Diginex Limited (NASDAQ: DGNX) ("Diginex" or the "Company"), a provider of ESG, sustainability and compliance solutions to institutional and corporate clients, today announced the launch of an enhanced end-to-end supply chain due diligence platform that gives companies one continuous view of risk, action and outcomes across their supply chains.

The launch comes as companies face growing expectations to understand and manage risks deeper within increasingly complex supply chains. Regulation is also evolving beyond disclosure, with due diligence requirements and forced labour import prohibitions increasing the need for businesses to evaluate risks within their supply chains and demonstrate how they are responding to them.

Verdantix forecasts that the global supply chain sustainability software market will grow at a 29% compound annual rate through 2029, with the market expected to exceed \$7 billion by 2029*. Diginex believes that growth is being driven by major regulatory initiatives including the European Union Corporate Sustainability Due Diligence Directive and EU Forced Labour Regulation, which will prohibit products made with forced labour from being placed on or exported from the EU market from December 2027.

The new offering enables customers to replace fragmented, manual supplier data with a single platform providing visibility around four stages:

- **Connect:** map suppliers across multiple tiers.
- **Identify:** validate risks by comparing company-reported, worker-reported and third-party data.
- **Act:** manage corrective action plans together with suppliers.
- **Demonstrate:** keep a traceable record from first finding to verified resolution.

The Company plans to extend the tool over time, subject to customer research and prioritisation.

By centralizing supply chain information and creating a verified record of risk identification and remediation, the new offering is designed to lower operating costs by centralising data, help reduce litigation risk exposure by a documented, evidence-based due diligence process, and support supplier and worker retention through clear accountability. "Regulation increasingly requires businesses to build a more complete picture of risk across their supply chains. That requires more than visibility, it requires actionable data that helps companies understand where risks sit, determine where to act and measure the outcomes," said **Archana Kotecha, Interim Chief Executive Officer of Diginex**. "Our solution is designed to connect those dots, helping businesses move from risk identification to action and measurable outcomes."

Forward-Looking Statements

This press release includes certain statements that are not historical facts but are forward-looking statements. Forward-looking statements generally are accompanied by words such as “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” “should,” “would,” “plan,” “project,” “forecast,” “predict,” “potential,” “seem,” “seek,” “future,” “outlook,” and similar expressions that predict or indicate future events or trends or that are not statements of historical matters, but the absence of these words does not mean that a statement is not forward looking. These forward-looking statements include, but are not limited to, (1) statements regarding estimates and forecasts of other financial, performance and operational metrics and projections of market opportunity; (2) the adoption of the new supply chain platform; (3) the Company's ability to sell its new supply chain platform in the market; (4) the development of regulatory provisions applicable to the supply chain platform market; (5) the projected technological developments of the Company's supply chain platform; and (6) current and future potential commercial and customer relationships. Any projections or other forward-looking information included in this press release, are provided for illustrative purposes only, and are not intended to serve as, and must not be relied on by any investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability; no representation or warranty is made as to their achievability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the control of the Company. These forward-looking statements are subject to a number of risks and uncertainties, as set forth in the section entitled “Risk Factors” and “Cautionary Note Regarding Forward-Looking Statements” in the Company's Annual Report on Form 20-F filed with the SEC on August 15, 2026. If any of these risks materialize or our assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. The risks and uncertainties above are not exhaustive, and there may be additional risks that the Company does not presently know or that the Company currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect the Company's expectations, plans or forecasts of future events and views as of the date of this press release and the Company undertakes no obligation to update or revise publicly any forward-looking statements to reflect subsequent occurring events or circumstances, or changes in its expectations, except as may be required by law.
